

5 things Sailors  
need to know!

NAVY

# Earth Day

5  
Whatever action you take, remember that local efforts like yours help us to ensure we have the resources we need to continue our global mission into the future.

1  
Environmental stewardship and energy efficiency is part of our DOD culture. Achieving a sustainable future requires thoughtful stewardship of resources and the environment.

2  
Smart energy use makes us better warfighters through extending our range, reducing our retreating requirements, and increasing the energy security of our installations, all while benefiting the environment.

4  
Maintain and enhance your efforts to reduce waste and use energy wisely.

3  
Common sense protection of the environment maintains trust with the public and the regulatory community while helping to ensure that unintended impacts to wildlife and habitat do not degrade our ability to conduct training and testing or to operate our ships, aircraft, facilities and tactical equipment.

A SUSTAINABLE

future

begins

WITH YOU
